

PMC Sets Sail for a Year of Superior Products and Commitment to Partnerships

Lakewood, NJ – October 16, 2018

[Polyurethane Machinery Corporation \(PMC\)](#) gathered their elite group of partners from around the world this September for a Global Distributors Meeting. The purpose of the meeting was to provide an environment to learn about and provide input for NEW PRODUCTS, as well as discuss product improvements and personally interact

with the PMC team. This meeting provided the perfect opportunity to empower the distributors, as well as recognize them as an integral part of building the business TOGETHER.

All members of the PMC team were present, including executive management, sales, technical support, quality control and marketing. CEO and Chief Executive Officer from parent-company PMC Global, Inc., Mr. Philip Kamins and President Mike Kolibas kicked off the meeting by speaking to the group about PMC – PAST, PRESENT and FUTURE - stressing the importance of their dedication to partnering with their distributors.

The meeting took place at the expansive and recently upgraded facility in Lakewood, NJ. This ideal setting set the stage for PMC to unveil exciting new products and gain insight about customers' requirements and needs. Each guest was allowed the opportunity to participate in constructive discussions about competition and challenges in the marketplace. In addition to live demonstrations of NEW products, the distributors were treated to a comprehensive tour of PMC's impressive 100,000 square-foot campus.

This meeting wasn't just about work though – there was a lot of CELEBRATING TO DO! PMC hosted guests to two fun evening events giving them a taste of "local summer at the Jersey Shore". The first night, everyone enjoyed a dinner cruise on the River Queen. During this event, President Mike Kolibas recognized and awarded INTECH EQUIPMENT & SUPPLY as "Top Domestic Distributor" for 2016 and 2017. CANADIAN URETHANE SPRAY EQUIPMENT (CUSE) was awarded "Top International

Distributor" for 2016 and 2017. The second night was a little more casual as everyone enjoyed a clambake, games and music at the famous Jenkinson's Boardwalk, against the backdrop of the beautiful Atlantic Ocean.

This September gathering was unquestionably, a productive week and a perfect balance of strategizing and festivities. PMC's President Mike Kolibas stated "Once again it was a pleasure to have our valued distributors take part in two days of information exchange at our corporate campus along with some fun activities enjoyed by everyone at the Jersey Shore. We gained a great deal of useful information from this meeting and appreciated the opportunity to communicate PMC's future plans and reinforce our commitment for continuing service to the distributors and the SPFA marketplace."

Polyurethane Machinery Corporation (PMC) manufactures equipment and accessories for use in the urethane industry. At PMC, the service does not stop with the sale. PMC provides its customers with outstanding sales and technical service through a worldwide network of distributors.
